

## BFACT President's Report 2021

Unsurprisingly, given the covid climate, there is little to report. Council continued to meet regularly via Zoom. I am grateful to Councillors for their cooperation and positive attitudes. Most events for which we have conducted trials have been cancelled, postponed and or transferred to online events. Which has resulted in the allocating, then rather dreary recovery of subsidies. Good for the bottom line, but nonetheless, disappointing. The RealBridge portal has been a welcome improvement on BBO sessions. We are pleased to welcome Will Jenner-Shea as our Youth Coordinator. He assumes the role previously held by John Yoon, who did so loyally for many years. While we would all prefer physical bridge to resume quickly, I am not sure how distant that horizon is. I look forward to a less disrupted 2022.
